

Tracy Robinson

Executive Vice-President and President, Canadian Natural Gas Pipelines

As Executive Vice-President and President, Canadian Natural Gas Pipelines, Tracy Robinson has overall accountability for the growth, operation and profitability of TransCanada's federally and provincially regulated natural gas pipeline assets in Canada.

Since joining TransCanada in 2014, Ms. Robinson has served as Vice-President, Transportation for the Liquid Pipelines business unit; Vice-President, Supply Chain; and Senior Vice-President and General Manager, Canadian Natural Gas Pipelines.

Prior to joining TransCanada, Ms. Robinson spent 27 years at Canadian Pacific, including executive roles spanning Operations, Finance and Commercial.

Ms. Robinson has held a number of industry and private board positions, currently serving on the Board of Directors of Smart Sand, Inc. and sitting as a member of the Dean's Advisory Council at the Edward's School of Business of the University of Saskatchewan. She represents TransCanada on the Board of the Canadian Energy Pipeline Association (CEPA), on the Board of the Canadian Gas Association and on the Board of the Iroquois Gas Transmission System. Ms. Robinson holds a Masters of Business Administration from the University of Pennsylvania's Wharton School of Business and a Bachelor of Commerce Degree from the University of Saskatchewan. She received her Institute of Corporate Directors designation in 2015.

With more than 65 years' experience, TransCanada is a leader in the [responsible development](#) and reliable operation of North American energy infrastructure including natural gas and liquids pipelines, power generation and gas storage facilities. TransCanada operates one of the largest natural gas transmission networks that extends more than 92,600 kilometres (57,500 miles), connecting major gas supply basins to markets across North America. TransCanada is a leading provider of gas storage and related services with 653 billion cubic feet of storage capacity. A large independent power producer, TransCanada currently owns or has interests in more than 6,600 megawatts of power generation in Canada and the United States. TransCanada is also the developer and operator of one of North America's leading liquids pipeline systems that extends approximately 4,900 kilometres (3,000 miles), connecting growing continental oil supplies to key markets and refineries. TransCanada's common shares trade on the Toronto and New York stock exchanges under the symbol TRP.
